Strength:-

- Network with regd. NGOs & Trust in the area working in the development arena
- Regular linkage with ChildLine affiliated non-government organization
- Linkage with Govt. Development departments i.e. Civil & Police Administration
- Link with Academicians, Experience Project Consultants & Prof. Social Workers
Challenges:

- Reluctance of the respondents to answer the questions
- Apathy of the PRI elected members to support as they are basically busy for political gain and own benefit
- In a patriarchal society, village leaders may not support as we expect
- Hindrance creation by the money lenders and local contractors
- Apathy of the Govt. Dept. to provide active support
Ways to manage the Challenges:-

- Find out a genuine respondent who wants to share her problems and worries.
- Continuous linkage with PRI members and Block level political wing so that village PRI members help us.
- Convince the village leaders regarding the issue.
- Linkage with local CBOs & NGOs so that the money lenders and local contractors unable to create a negative situation.
- Continuous linkage with the Govt. Dept. at the block & district level and with District Collector (DC) Office.
